Solar Irrigation  
Ecological Restoration  
Riparian Vegetation Consultation

**We are looking for an Irrigation Specialist to oversee our solar irrigation department.**

**Position Title: Irrigation Systems Supervisor**

**Job Type:** Full Time/Seasonal

**Purpose:**

The Irrigation Systems Supervisor will oversee preparation, maintenance, deployment, and demobilization of our proprietary solar irrigation systems to ensure plant survival and optimal growth on our project sites and nursery. They will manage the inventory of all irrigation components and supplies and provide leadership, training and supervision of restoration crews and farmhands during irrigation deployment on restoration projects.

**Status:** Reports to Project Manager/CEO

**Location:** Rockyview County, interprovincial deployment required

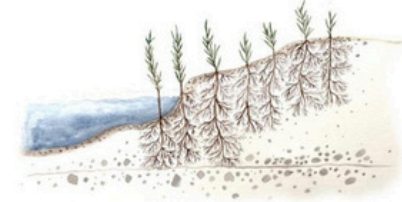

**Pay Level:** [Level 3] Placement in scale dependent on experience and education. Pay level 3 ranges from \$40,000-\$75,000 (hourly or salary position dependant) and includes a benefits package and other discretionary benefits.
