Customs Brokerage Limits of Liability

I APPLICATION

The following provisions shall apply to all transportation of goods by for-hire highway carriers licensed under the Motor Vehicle Transport Act (Canada, R.S.C., 1970, M -14) or under provincial statutes with the exception of the transportation of:

a) used household goods,
b) livestock,
c) bus parcel express shipments,
d) the personal luggage of bus passengers,
e) such other specific commodities as may be specified by provincial law.

II BILL OF LADING

1. A Bill of Lading shall be completed as provided herein for each shipment.
2. On each article covered by the Bill of Lading, there shall be plainly marked thereon by the consignor, the name of the consignee and the destination thereof. This requirement does not apply in cases where the shipment is from one consignor to one consignee and constitutes a truckload shipment.
3. The Bill of Lading shall be signed in full (not initialed), by the consignor and by the carrier as an acceptance of all terms and conditions contained therein.
4. At the option of the carrier a way-bill may be prepared by the carrier and the way-bill shall bear the same number of other positive means of identification as the original Bill of Lading. Under no circumstances shall the way bill replace the original Bill of Lading.

III CONDITIONS OF CARRIAGE

1. Liability of Carrier
The carrier of the goods herein described is liable for any loss or damage to goods accepted by him or his agent except as hereinafter provided.

2. Liability of Originating and Delivering Carriers
Where a shipment is accepted for carriage by more than one carrier, the carrier issuing the Bill of Lading (hereinafter called the originating carrier) and the carrier who assumes responsibility for delivery to the consignee, (hereinafter called the delivering carrier), in addition to any other liability hereunder, are liable for any loss of or damage to the goods while they are in custody of any other carrier to whom the goods are or have been delivered and from which liability the other carrier is not relieved.

3. Recovery from Connecting Carrier
The originating carrier or the delivering carrier, as the case may be, is entitled to recover from any other carrier to whom the goods are or have been delivered the amount of the loss or damage that the originating carrier or delivering carrier, as the case may be, may be required to pay hereunder resulting from loss of or damage to the goods while they were in the custody of such other carrier.
When shipments are interlined between carriers, settlement of concealed damage claims shall be prorated on the basis of revenues received.

4. Remedy by consignor or Consignee
Nothing in articles 2 or 3 deprives a consignor or consignee of any rights he may have against any carrier.

5. Exception from Liability
The carrier shall not be liable for loss, damage or delay to any of the goods described in the Bill of Lading caused by an Act of God, the Queen's or public enemies, riots, strikes, a defect or inherent vice in the goods, the act or default of the consignor, owner or consignee, authority of law, quarantine or differences in weights of grain, seed, or other commodities caused by natural shrinkage.

6. Delay
No carrier is bound to transport the goods by any particular vehicle or in time for any particular market or otherwise than with due dispatch, unless by agreement specifically endorsed on the Bill of Lading and signed by the parties thereto.

7. Routing by Carrier
In case of physical necessity where the carrier forwards the goods by a conveyance that is not a licensed for-hire vehicle, the liability of the carrier is the same as though the entire carriage were by licensed for-hire vehicle.

8. Stoppage in Transit
Where goods are stopped and held in transit at the request of the party entitled to so request, the goods are held at the risk of that party.

9. Valuation
Subject to article 10, the amount of any loss or damage for which the carrier is liable, whether or not the loss or damage results from negligence, shall be computed on the basis of:
a) the value of the goods at the place and time of shipment including the freight and other charges if paid: or
b) where a value lower than that referred to in paragraph (a) has been represented in writing by the consignor or has been agreed upon, such lower value shall be the maximum liability.

10. Maximum Liability
The amount of any loss or damage computed under paragraph (a) or (b) of article 9 shall not exceed $2.00 per pound (computed on the total weight of the shipment) unless a higher value is declared on the face of the Bill of Lading by the consignor.

11. Consignor's Risk
Where it is agreed that the goods are carried at the risk of the consignor of the goods, such agreement covers only such risks as are necessarily incidental to transportation and the agreement shall not relieve the carrier from liability for any loss or damage or delay which may result from any negligent act or omission of the carrier, his agents or employees and the burden of proving absence from negligence shall be on the carrier.

12. Notice of Claim
a) No carrier is liable for loss, damage or delay to any goods carried under the Bill of Lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage or delay is given in writing to the originating carrier or the delivering carrier within sixty (60) days after the delivery of the goods, or, in the case of failure to make delivery, within nine (9) months from the date of shipment.
b) The final statement of the claim must be filed within nine (9) months from the date of shipment together with a copy of the paid freight bill.

13. Articles of Extraordinary Value
No carrier is bound to carry any documents, specie or any articles of extraordinary value unless by a special agreement to do so.
If such goods are carried without a special agreement and the nature of the goods is not disclosed hereon, the carrier shall not be liable for any loss or damage in excess of the maximum liability stipulated in article 10 above.

14. Freight Charges
a) If required by the carrier the freight and all other lawful charges accruing on the goods shall be paid before delivery and if upon inspection it is ascertained that the goods shipped are not those described in the Bill of Lading the freight charges must be paid upon the goods actually shipped, with any additional charges lawfully payable thereon.
b) Should a consignor fail to indicate that a shipment is to move prepaid, or fail to indicate how the shipment is to move, it will automatically move on a collect basis.

15. Dangerous Goods
Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full disclosure to the carrier as required by law, shall indemnify the carrier against all loss, damage or delay caused thereby and such goods may be warehoused at the consignor's risk and expense.

16. Undelivered Goods
a) Where, through no fault of the carrier, the goods cannot be delivered, the carrier shall immediately give notice to the consignor and consignee that delivery has not been made, and shall request disposal instructions.
b) Pending receipt of such disposal instructions,
i) The goods may be stored in the warehouse of the carrier, subject to a reasonable charge for storage; or
ii) Provided that the carrier has notified the consignor of his intention, the goods may be removed to, and stored in, a public or licensed warehouse, at the expense of the consignor, without liability on the part of the carrier, and subject to a lien for all freight and other lawful charges, including a reasonable charge for storage.

17. Return of Goods

- Plant ID program is available to paid, commercial vendors only
- GISC management shall have final decision on all aspects of the Plant ID program

HOW THE PLANT ID PROGRAM WORKS:

- Each trade show delegate will receive a Plant ID form at registration.
- The Plant ID form will list 15 participating exhibitors, including their company logo, booth number and location on the floor plan.
- Delegates visit each participating exhibitor to find the plant at the participants booth that they will have to ID. They must enter a name on the Plant ID form.
- Completed Plant ID forms can be dropped in the Plant ID boxes for scoring and the opportunity to win prizes!
- A draw box will be positioned at the trade show entrance/exit and in the Landscape Alberta booth.

Cost to be a participating exhibitor: $300 + GST

WHAT YOU GET:

- Increased traffic to your booth as the Plant ID program specifically directs delegates to you.
- Your company logo and booth number on every Plant ID form, distributed to all delegates (1,000 printed).
- Advertisements featuring participating companies in the October/November/ December issue of Green for Life Magazine (show guide).
